PROJECTS

Online Class Analysis

Analyzed online learning course data to identify learner behavior and engagement patterns

- Performed data cleaning and preprocessing using Python, Pandas, and NumPy

Secure apk: AI malware Detection

Developed an AI-based system to detect malicious Android applications using machine learning algorithms

- Trained and evaluated the model using Python, Scikit-learn, and Pandas to improve malware detection accuracy

House Price Prediction using Machine Learning

Developed a machine learning model to predict house prices

- Built using **Python, Pandas, NumPy, Scikit-learn, Matplotlib**, and **Linear Regression**.

SKILLS

Programming languages

Python Java

AI technology/field

Machine learning Datascience

Web development

HTML CSS JavaScript

DATABASE

MYSQL firebase console

Tools and technologies

Git & GitHub VS Code jupyter
